

Parking Updates for December 2021

Please be advised: A couple of projects are coming up which will affect parking in specific areas. These projects are occurring **Monday Dec. 20, 2021 and Tuesday Dec. 28-29, 2021.**

1. **On Monday Dec. 20**, a new MRI will be delivered to NOVANT NHRMC. The exact deliver location will be at the patient discharge, located at the north-west (front) side of the main hospital. The delivery is scheduled for **8:00am**. Security Officer Morton will be on site to manage the traffic flow around the delivery truck. One vehicular lane of travel will be temporarily closed, directly in front of the hospital. (see image below for details)

2. The evening of Tuesday Dec. 28, the security team will block off a parking row located at the NOVANT NHRMC MRI patient and visitor parking lot. The mobile MRI trailer will be placed in the MRI parking lot for approximately one month. Additionally, Company Police team members will capture approximately 10 parking spaces for MRI patients and visitors in the area or OSHA 10A. These captured parking spaces will be reserved for MRI visitors for at least a month or more. (see image below for details)

On Dec. 29, the mobile CT scanner will be delivered to NOVANT NHRMC MRI parking lot. No team members or hospital staff should park in the areas reserved for MRI patients and visitors. Additional MRI parking spaces may be reserved if patient volume increases.

Thank you for your assistance. Please feel free to contact me with any questions or concerns.

Chris Spivey

Security Officer

Novant Health New Hanover Regional Medical Center
